PRESIDENT'S MESSAGE

By Patricia Ackerman, CDFM

We have a new web site!! You must take a peek. You can find it at www.hecsa.usace.army.mil/asmc_mtvernon/. Add it to your "favorite" sites. Kevin Brooks, your new webmaster this year, has worked very hard to make our new web site good looking, useful and user friendly. Please go browse for awhile. Let Kevin know what you think. If you have suggestions for making it a better, more informative site, please let him know. This web site is for you so help us make it an effective, helpful, valuable site for your use.

For those of you that weren't able to attend the March tour of the Pentagon with lunch at the Pentagon Executive Dining Room, it was fantastic. Dave Knowlton, your Program Director, did an outstanding job arranging for this tour. The tour guides were very informative and knowledgeable about all of the artifacts displayed throughout the building.

And of course, this month we will once again be having our Professional Development Day at the Springfield Hilton. This year the PDD will be on 17 April. We have several great speakers lined up for the event.

We recently reviewed all the scholarship applications. After carefully scrutinizing them we forwarded two of them on to National ASMC to compete for additional scholarship funds there. The number of scholarships we award ourselves will depend on the success of the PDD. The majority of the funds we earn at the PDD each year pays for the scholarships we award to deserving high school students. So please come out to the PDD and support the scholarship program. I hope to see you there.

This letter can be viewed on the ASMC website at www.asmconline.org/news/index.ep.html?ID=37.

Continuing Professional Education

Individuals who have obtained the Certified Defense Financial Manager (CDFM) designation must renew that certification with ASMC every two years. To do this, CDFMs must complete 80 hours of Continuing Professional Education (CPE) in every two-year period following the issuance of the certification. The anniversary date for measuring the CPE qualification is two years from the date the CDFM certificate is issued. One unit of CPE is awarded for each 50 minutes of contact time engaged in activities listed below.

- Attendance at relevant formal training courses
- Attendance at relevant college courses
- Attendance at briefing or lectures on relevant subjects
- Attendance at professional conferences
- Teaching and course preparation for relevant subject matter
- Preparation and delivery of briefing and work-related documents outside of the scope of routine business
- Reading of articles in professional journals
- Preparation and publishing articles in professional journals

Individuals are responsible for documenting their own CPE. ASMC recommends that CDFMs record continuing professional education hours in a log, which is readily accessible. The CDFM must provide this log, on request to ASMC National Headquarters. The ASMC CPE policy document can be downloaded from the CDFM website (www.asmccertification.com, then click on "References," then click on "Library," then download selection #4).

www.asmconline.org Bulletin Board

The ASMC website has a bulletin board forum to facilitate communication and networking between chapters. We encourage you to use this forum to exchange information, gather input, and announce chapter programs. Please remember that inquiries for ASMC staff members should be sent via e-mail.

Taxes and "It's How Much You KEEP, That Counts!"

Written by Joe Riggio

Have you done your taxes yet for 2003? If you still are working on your 2002 taxes just keep on working into your 2003 taxes while you are on roll. Why? To keep as much money that you earned as possible. You earned it, so why just hand it over to the government when with a little thinking and planning you can keep your hard earned money to have some fun!

Congress has told the IRS to give Huge Refunds and Deductions to taxpayers, who have a home-based business. If you need one find one or contact me. This is a fantastic way to get increase your income while keeping your day job. It can be fun to when you get involved with a company, product or service that you love. By working a couple of hours at your home based business during the week at something you love can help make you money. It can also save you tax dollars that you would normally pay to the government for your regular job. You can even have your children working for you and really have a win/win situation.

"It's time for people to begin minding their own business. A job means you're being paid to mind somebody else's business. In this new economy, you need to mind your own business. The idea that you can go to school, get good grades, find a safe, secure job, and have the company and the government take care of you is fundamentally of the Industrial Age. It was a good program - as long as you were born prior to 1930. People need to stop working for money and learn how to have money work for them. I see network marketing as one of the primary vehicles through which people can shift their thinking and their efforts. Being a network marketer is really minding your own business." This is a quote from Robert Kiyosaki (Veteran)-- author of "Rich Dad, Poor Dad" and many other books about creating wealth by leveraging your time and money through "Income Producing Assets!" See <http://www7.richdad.com/default.jsp>.

This is just one example on how you can make money by saving on your taxes. For the new tax year, 2003, each business mile is worth a 36-cent deduction (it was 36.5 cents/mile for 2002). So, every 3,000 business miles you put on your vehicle, is worth a little over \$1,000 in tax deductions. Since the average person will put about 15,000 miles on their car this year, if they are all business miles, you'll have more than \$5,000 in tax deductions. (Don't forget to use the IRS' Two-Business Location Rule to convert non-deductible "commuting" miles into tax-deductible business miles.). HERE'S THE GOOD NEWS! You do NOT need to record every movement of your car all year long. The IRS now gives you four choices for documenting the business use of your vehicle(s). You can get details at <http://www.kickstartcart.com/app/afrack.asp?afid=37721>. CUT YOUR TAXES in 2003 up to 50%!

Of course check with your accountant. If you do not have one I recommend Bill Reagle, CPA (veteran).
